

The power-packed all-rounder: PowerDisc single disc machines

PowerDisc LS = Low Speed
PowerDisc HS = High Speed
PowerDisc HD = Heavy Duty

Basic cleaning – sanding – polishing and lots more

PowerDisc single disc machines master every task with ease. From basic and maintenance cleaning, hard and soft floor surfaces, laminated/wood floor sanding and polishing to crystallising marble floors and and lots more – no challenge is too great. The machines are sturdy, easy to steer and as a result of continuously adjustable levers guarantee easy handling. Thanks to the belt drive, the machines operate far more quietly and without vibrations, even at full power. Fatigue-free working is guaranteed. The machines are produced 100% in Switzerland – top quality is guaranteed.

PowerDisc LS Low Speed

Use:
Basic cleaning, wet scrubbing, carpet cleaning

Low speed machine 160 RPM.
The standard machine, suitable for basic and maintenance cleaning. Very quiet operation, thanks to belt drive. Optional additional weight available.

PowerDisc HS High Speed

Use:
Care, polishing, spray cleaning

High speed machine 410 RPM.
For care and polishing, also spray cleaning. Optional additional weight available.

PowerDisc HD Heavy Duty

Use:
Wet scrubbing, crystallising, sanding

Low speed machine 160 RPM.
The high performance machine weighs 43 kg, including the standard weight, thus providing ideal results. With additional weight another 8 kg = 51 kg.
Ideal for crystallising calcareous natural stone floors (marble, travertine).

Stains in carpets quickly removed with PowerDisc LS. Carpets can be walked on immediately afterwards

Wet scrubbing with PowerDisc LS

Basic cleaning with PowerDisc LS

The all-rounder among the single disc machines is the PowerDisc LS – LS stands for low speed. At 160 RPM it puts in a convincing performance, thanks to its versatility: the PowerDisc LS cleans smooth floors of all kinds as well as carpets. Stain removal using the carpet pad method is particularly popular. The big advantage is that the carpet can be used immediately afterwards. Thanks to the continuously adjustable handle adjustment, the machine can be set for anyone. Cleaning becomes easy. The 14-litre tank is easy to mount and demount.

Polishing with PowerDisc HS

Caring and polishing with PowerDisc HS – HS stands for high speed. At 410RPM, the machine puts the sparkle back in many places – not just the laminated/wood floor, but the mood of the janitor too. The Power Disc HS is ideally suited to spray cleaning too. This method is advisable for stains and worn care dressings .

PowerDisc HD: powerful and versatile

The PowerDisc HD is designed for the toughest demands. HD stands for heavy duty. It makes no difference if the job is sanding laminated/wood floors, wet scrubbing of hard floors or crystallizing marble: you get a first class result with the removable 9.8 kg standard weight. In addition, another two weights of 4 kg each can be fitted. Power pure and simple. The machine is extremely user-friendly: one-two-three and the suction ring is fitted – see illustration below. To transport, simply remove the standard weight.

Laminated/wood floor sanding with PowerDisc HD

Easy fitting of the sanding plate

Even more force on the floor with these additional weights. Can be fitted with two screws on the weight. Total weight 51 kg.

Wet scrubbing with lots of power: PowerDisc HD

PowerDisc HD: crystallising marble

Marble floors are an optical delight and endow every room with an elegant touch. But daily life leaves its mark here as well. What to do? Crystallise worn and faded stone surfaces with the PowerDisc HD – they look like new afterwards. Even scratches can be removed like this. With regular care, the beauty of marble last forever.

To transport, simply remove the standard weight.

Easy tool preparation for crystallisation

A pad and steel wool ring are required for spray crystallisation of marble floors.

Crystallising marble with PowerDisc HD
